

Cybersecurity: Mitigating Risks and Protecting Data

Mr. Stephen Bala

IT Infrastructure and Security Manager, Innovo Group

- Certified Chief Information Security Office (CCISO - EC Council)
- Certified Information Systems Security Professional (CISSP - ISC2)
- Certified Information Security Manager (CISM - ISACA)
- Certified in Risk and Information Systems Control (CRISC - ISACA)

About our speaker:

Mr. Stephen Bala, the IT Infrastructure and Security Manager at Innovo Group, is a distinguished leader and expert in the field of cybersecurity. With an extensive career spanning notable positions at Innovo Group, Thales Defense & Security, Inc., and IBM, Stephen brings a wealth of knowledge and experience in modernizing IT infrastructure, designing robust network services, and ensuring comprehensive information security.

Stephen's professional journey is marked by his profound expertise in transforming and optimizing IT systems to meet the evolving demands of the digital age. His technical acumen is complemented by a solid educational foundation in Computer Engineering, as well as advanced certifications in project management, leadership, and ITIL. These credentials not only highlight his technical proficiency but also his strategic capability to manage and lead complex IT and cybersecurity projects.

In his current role at Innovo Group, Stephen is at the forefront of pioneering efforts to modernize the organization's IT infrastructure and elevate its cybersecurity posture. His role involves deploying state-of-the-art solutions and developing a secure, resilient IT environment that addresses current and future security challenges. Stephen's leadership in this domain reflects his commitment to excellence and his proactive approach to navigating the dynamic and often unpredictable digital landscape.

Under Stephen's stewardship, Innovo Group's IT architecture has undergone significant transformation, and its cybersecurity framework has been fortified to safeguard against an array of threats. His strategic focus on integrating advanced security measures and fostering a culture of continuous improvement ensures that the organization remains well-positioned to protect valuable data assets and maintain a competitive edge.

Stephen Bala's extensive experience, combined with his strategic vision and technical expertise, makes him an exemplary speaker for the topic "Cybersecurity: Mitigating Risks and Protecting Data" at the PICPA Middle East Convention. His insights into the complexities of IT infrastructure and cybersecurity are invaluable for understanding how to effectively manage risks and implement robust data protection strategies in today's ever-evolving digital environment.
